Experience

Frontend Developer Internship | [Certificate](#)   Oct 2022 - Current
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Frontend Developer Support   Sep 2022 - Current
Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

I.T Manager/Web Developer   Aug 2018 - Current
UNI-FAB

- Ensured company I.T infrastructure performance and uptime by working with vendors to keep up to date
- Developed an internal communication tool to allow company HR to post announcements, policies, forms, employee directory and more in a central location

Projects

Nests | [Website](#)
- A fully responsive social media app allowing users to add posts, like, comment and follow users (Currently in development)

Twitter Clone | [Website](#) | [GitHub](#)
- Developed a social media app that pulls data from firebase and dynamically displays it on screen

Google Clone | [Website](#) | [GitHub](#)
- Integrated Google's API to create a real-world search engine to sort News, Images and Videos.
